

Nkhamenya Girls Secondary School,
P. O Box 1
Kasungu,
Malawi.

Hi Shahana,

I was very pleased when I received your letter and I really wished to reply. I am Chimwemwe Mtambe and my friends call me Chimzy. I am a girl aged thirteen and live in village with my mum and dad. I have two sisters and a baby brother. My favourite food is rice with fried egg, spaghetti and macaroni cheese. My hobby is playing football although I am a girl and riding bicycle.

I am form two at Nkhamenya Girls Secondary School and it is boarding school. Here at school we learn different subjects like Computer, Home Economic, English, Maths, Geography and other subjects. But for all these subjects I like Geography most because I want to be an engineer. What do you want to be when you finish school? And guess what? My dream university to study is in England. What do you feel about that? I hope that we will meet each other and it will be so nice to see you my friend.

To talk about Malawi it is very peaceful and blessed country with natural resources. For example we have Lake Malawi which contains beautiful fish known as Mbuna and Chambo and it is only found here in the whole world. We have also Mount Mulanje which is the third largest in Africa, game reserves and national parks. Although my country is a little bit poor this resource brings foreign currency through tourism attraction which helps us for developing our country. I hope you would wish to come and see these wonderful places and many other interesting things which you can

enjoy.

I hope you have enjoyed this letter and you could keep on writing letters so that I can know more information about you and your country. I hope you are so excited to come here. Bye

From yours

Friend Chimzy & Chimwemwe

AND PEACEFUL Country

YOU ARE MOST

Beautiful To Our
