

Paddington Academy | A-Level Summer Transition work

You will be expected to complete the following and bring it to your first lesson in September:

1. Go to a gallery (this can be online) and create at least 3 artworks including a study in pencil or pen made whilst standing in front of a piece of art that interests and inspires you. Add annotation beside the drawing to show ideas and thoughts that go through your mind whilst looking at the work.
2. Take a set of 5 photographs as a response to the theme or composition of the artists' work that you studied in the gallery. This could involve setting up a scenario and then photographing it or going to a location to take photos. Make sure at least 3 of these photos are close up and show detail of the object/ idea you are investigating.
3. Create one sustained study or response from 2 of these photos (it can be a drawing, painting or a sculpture) in any media that suits you.
4. Create a companion journal and create a visual diary over the summer holiday. You should sketch every day for a minimum of 10 minutes. Explore different media and techniques. For inspiration look at the Access Art link: <http://www.accessart.org.uk/?p=13725>
