

A Level Further Maths Year 11-12 Transition Work

This is the transition work if you want to take A-level Further Maths as well as A-Level Maths – if you have chosen just A-Level Maths you need to complete a different task in the folder.

- This pack contains 21 investigation tasks to introduce you to some of the new topics and ideas in A-Level Maths and Further Maths.
- They are designed to be completed independently with the support of online websites and graphing resources.
- Task 11E is an Extension task and is not compulsory. The **take it further** questions are also optional.
- Ensure that you show all working clearly for each task and upload/submit as described by the year team. **Due Date: 18th May.**

Looking forward to seeing you all next year!!
