

Geography

Edexcel 9GEO

A Level

Aims & Content

Physical Geography

Looking at the role of different processes in shaping our world, and how it is managed by governments around the globe.

Topics: Tectonic Processes and Hazards, Coastal Landscapes and Change, the Water Cycle and Security, and Carbon Cycle and Energy Security.

Human Geography

Looking at the relationships between people and places around the world.

Topics: Globalisation, Diverse Places, Super Powers and Migration and Identity.

Why

Geography is recognised as being an academic subject which is well-respected by both universities and employers. It is a fantastic subject to bridge between the Humanities and Science subjects. Geographers develop a range of skills, including data analysis, and understanding of processes as well. They get involved in politics, humanitarian work, health and medicine, engineering and much more!

Assessment

Three exams taken in summer 2022

Paper 1: Physical Geography

Paper 2: Human Geography

Paper 3: Synoptic investigation of a recent issue

NEA coursework: on your chosen fieldwork topic

Teacher: Mrs Jackson-Ball
